AMONG THE COLLEGES.

HARVARD.

PREPARING TO PRESENT A LATIN PLAY.

Cambridge, Mass., April 2 (Special).-It was anunced yesterday that the Latin department had de cided to produce a Latin comedy, in which none but students will take part. The play selected for this purpose is "Phormio of Terence." The cast of charters has not yet been fully completed, but work on the play has already begun under the direction The parts will be learned b fore the end of this college year, but owing to slow ork in perfecting such a play, the performance will not to be given until after the mid-year's of 1894, the latter part of February or early in March. The presentation will be given as nearly as possible in the manner such a play would be performed in the time of Augustus. No masks will be worn, however. The effort will be to make it an illustration rather than a modern dramatic entertain-

arouse widespread interest, particularly after the marked success of the Greek play which was given in 1881. That was the first production of its kind in professors, instructors and lecturers in the university, America, and it attracted to Cambridge probably the together with those of ex-President Noah Porter, who most distinguished gathering of literary people ever assembled at one time. People flocked from all parts and paid fabulous prices for seats. The press of the country gave long accounts of it, and London papers The event marked an important period at

the Greek department encouraged the projectors given at a later date. They conceived then the it accord with the culture of to-day. In the music, particularly, it is very hard to reconcile the many A strict following of the old forms would hardly pass with a modern audience; it would sound to introduce modern music. These obstacles, it is is thought to be near enough to the ancient, and at the same time not strange to modern cars. For the Greek play a full chorus and unaccompanied dialogues answer well enough, but this is not true in a Latin quire, the wood wind instruments taking the place of the ancient tiblae. The leading characters will be taken by men who have already shown marked proficiency in college theatricals, and the affair promises period in college life, as the Greek play of 1884 did.

of the Phillips Brooks House have already secure subscriptions to the amount of \$50,000 or Within a few days they are to begin a systematic effort to raise the necessary \$300,000, especially in Boston and Cambridge. They have, with this in view, drawn up a statement which shows very clearwhat needs the building is intended to fulfil. meetings of any sort may be held, providing they are consistent with the character of the buildto the University, with the necessary cultuary arrangements, and also rooms for the guests of the University. It will also provide arrangements for students who live at a distance from cellege and merely pass the day in Cambridge. It is hoped through the accommodation allowed by this building to bring out the social side of college life and to rish an attractive and home-like reading room. The committee solicits subscriptions, realizing the great need for such a building in the University, and make their plea in the name of that "charitable, hospitable and humane spirit which is at nt unhoused at Harvard, and which Phillips Brooks carnestly wished to strengthen by a build-

The athletic season has been in full swing for r week. It will have a partial full for a few days while the spring recess is being held, but even then done. On Tuesday the nine will start on its Easter trip south, playing with the University of Pennsylvania, University of Virginia, Georgetown University and the Boston League. The crews will stay in Cambridge as usual, and also the freshman nine. The men who have been chosen for this are Armstrong, Hayes, Winslow, Maure, Mecnrdy, Hoppin, Paine, Marse, Winslow, Maure, Mecnrdy, Hoppin, Paine, Morse, Goulerman, Keefe, Morton, McCarthy, Griffin, Kingsbury and O'Malley. The junior crew went to the training table last week. All the crews are end doing by far the best. The University crew is constantly being shifted in its make-up, hardly rowing the same on two successive days. "Hob" Acton has recently begun to train for the boat, but he weighs over two hundred pounds. He is made to work by himself and will not be given a place unless he can reduce his weight as low as to 190 pounds.

The Mott Hayen team went cut on the freek on will be a great deal of quiet but effective work

The Mott Haven team went out our word aver than last year. The track is in remarkable de condition for this early date. Fifteen of the st promising candidates will be taken to the train table soon after the spring recess. The contest Mott Haven and with Yale at Cambridge are

CLINTON LIBERAL INSTITUTE.

Fort Plain, April 2 (Special).-Six hundred invita tions have been issued for the post Lenten ball which will be given in the armory Tuesday evening by the proceeds of the ball will help defray the expenses of baseball team for the Eastern trip. The following additional games have been arranged for: May 1, Cuban Glants at C. L. I.: May 27, Oneonta State Normal School at C. L. I.; June 3, C. L. I. at Oneonta State Normal School; June 8, C. L. I. at Tufts Col-

The study of American history has been placed in the second session of the fourth year of the cur-riculum. The work will be of an advanced charac-ter. The general topics for 1893-94 are the French and English in America, the Mexican War, and the history of the Constitution.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY. Boston, April 2 (Special) .- Among the impor ant ocurrences of the week has been the annual meeting of the M. I. T. A. A. for the election of officers.

During the week very successful dinners were held the Architectural Society, the K. S. Society and reshman class.

HAVEEFORD.

Haverford, April 2 (Special).-The annual "Junion Day" will come on April 14. The class of '94 has chosen the following men to speak on that evening: Henry S. Conard, William W. Comfort, Henry W. Soarborough, Oscar M. Chase and George A. Beyerle. The faculty has appointed Walter M. Hart, '92, graduate student in English, to deliver the Master's oration on Commencement Day, From the se class, Charles J. Rhads, Franklin Whitall and ber A. Estes have been appointed as speakers on

College Hill, Mass., April 2 (special).—The base-ball season at Tufts will open on the home grounds April 5 with a game with Boston University. Some of the principal dates already arranged are April 19 Brown at Providence: April 22, Worcester Polytechnic Institute at Worcester; April 27, Boston College Tufts; April 29 Wesleyan at Middletown; May 1, Harvard at Cambridge; May 5 and 6, Bowdoin at Portland; May 12 and 13, Dartmouth at Hanover; May 26, Williams at Williamstown; May 31, Amherst

THE WOMAN'S COLLEGE.

Baltimore, April 2 (Special).-The Easter vacation number of students than usual have remained at the Homes during the holiday.

Professor Boyesen, of Columbia College, is an-nounced as the speaker on Commencement Day. Present Goucher will sail in May for Europe, so that the degrees will be conferred by the dean, Dr. J. H.

President Concher has just received a check for \$10,000, which is the third gift of money for the is very proud of the showing that will be made by

sollege received in March.

The Woman's College exhibit for the World's Fair s now in order, and is being pucked to be sent wings showing the arrangement of the class-rooms, a cross sections indicating the ventillating and ting appliances; diagrams and vables showing work done in the department of physical train is clearly and papers from the departments of the class-rooms, gratings that the spectrum analysis could be made on so large a scale. This wonderful piece of work has made Professor Rowland famous throughout the scientific world. The dynamo electric machine made is trawings and papers from the departments of the class-rooms.

blology and chemistry; with a collection of inver-tebrates gathered by students; there's of the gradutebrates gathered by students; there of the gradu-ates; publications issued by members of the faculty; drawings in charcoal, oil and water colors from the art department, and a sketch of the proposed new Music Hall. The space given to the college in the Liberal Arts Building will be next to that occupied by Johns Hopkins University. A number of Pash light pictures of one of the gymnasium classes were taken last week. They will be sent to different institutions which have expressed a wish for good photographs of these classes.

YALE.

A COMPLETE LIST OF WORKS BY THE PRESENT COLLEGE OFFICERS.

New-Haven, Conn., April 2 (Special).-The publication of the work entitled "Yale Bibliographies" marks a plan, unique in its nature, originated by one of the instructors of the university. The idea of every work written by the present officials of the college has been carried out by Dr. Irving Fisher,

The book will be published early in April. It alm to furnish a means of reference to the investigations of all the officers of the university, and includes the titles of all the important publications of the present together with those of ex-President Noah Porter, who died a year ago. It is, without doubt, the largest list ever published in a single volume. It comprise over 100 octavo pages and includes about 2,000 titles. The book begins with the writings of President Porter; the others following in alphabetical order. works, produced in the period between 1834 and 1891. cover eleven pages and about 150 titles. Each title the year of publication, and, in the of the journal, with the volume and inclusive page where the article is found, while in the case of a dea of producing a Latin play, but it seemed too much of an attempt after the experience they had just undergone, and only recently has the plan matured. It is, in a way, a stupendous undertabling. The average Marsh covering 200 ittles, other long lists are person can little reslize the difficulties which present themselves. The point which has constantly to be those of Professors Brewer, Chittenden, James D. themselves. The point which has constainly to be kept in mind is to give as exact a reproduction of the play as possible, and at the same time to make the play as possible, and at the same time to make the play as possible, and at the same time to make the culture of to-day. In the music, A. Newton, Sydney I. Smith, William D. Whitney and Henry S. Williams. Twenty-seven of the lists cover more than twenty-five titles each. The book closes with an index of names arranged according to depart ment, viz.: Theology, psychology, ethics and philoophy, political and social science, law, history, modern languages and linguistics, the medical sciences, botany, and Professor Allen has composed some music which biology, zoology, paleontology, geology, nuneralogy, agriculture, chemistry, physics, mathematics and as tronomy, engineering, the fine arts of music, elecution

gymnastics and military science.

The simple statement of tids great variety of subjects and the fact that these writings must cover more than 100,000 pages suggests the continual working power, and the wide-reaching influence of the body of teachers connected with a large and prominent educational institution like the university and makes the introduction of such a work as Dr. Fisher's valuable addition to practical literature.

Hereafter a corresponding list will be issued an

nually to cover future publications. The annual banquet and initiation of the Phi Beta Kappa society was held last evening. The toast-masters were H. S. Bowns, '93, and W. E. Dwight, '93. The following men from '94 were initiated S. S. Allen, E. R. Eosley, F. H. Chase, H. S. Dawson T. W. Gosling, Ernest Knaebel, R. H. Nichols, E. B. Reed, W. E. Thoms, W. G. Van Name, G. F. Van Slyck, J. P. Cooke, T. E. Davies, Jr., G. E. Dorland,

R. Skinner, R. F. Smith, jr., W. R. Wright, The ten men who will comprise the crew been selected, and are now rowing in the harbor both morning and afternoon. The men, with their position: in the boat, are as follows: Stroke, Gallandet, '93

in the boat, are as follows: Siroke, Gallandet, '93; No. 7, Captain Ives; No. 6, Paine, '94; No. 5, Beard, '91; No. 4, Folger, '94 S.; No. 3, Rogers, '94 S.; No. 2, Messler, '94 S.; bow, Johnson, '94 S. Substitutes, Chatfield, '93, and Goetchins, '94 S. Rogers's position at No. 3 will probably not bepermanent, as Van Huyck wil soon return to fill the place. Cirustead, '94 s. will probably sit in the coxywain's seat as last year.

Cross, who has dropped from the crew, will probably enter the freshman boat and be made permanent captain of that crew.

RENSSELAER POLYTECHNIC INSTITUTE.

Troy, N. Y., April 2 (Special).-Theodore Cooper, of New-York City, who graduated in the class of 1555, ectured last Thursday before the faculty and students on "Specifications."

The commencement address will be delivered by State Senator Joseph Mullin, jr., of Watertown, who

EATES COLLEGE.

Lewiston, Mc., April 2 (Special),-The senior exhibition took place on Friday evening. The following had been selected to participate, but sickness and acci-dent prevented some from being there: Miss Halley. Miss Bean, Miss Callahan, Mr. Chase, Mr. Fanning Miss Little, Mr. McFadden, Miss Hodgdon, Mr. Lothrop, Mr. Bruce, Mr. Yeaton, Mr. Pennell.

On Thursday evening occurred the prize declamations by the prize division of the sophomores. speakers were Miss Ethel Williams, Miss L. E. Neal, Nathan Smith, Miss E. B. Cornish, Miss R. Summer-bell, F. A. Knopp, R. E. Flies, F. T. Wingate, Miss H. N. Willard, W. S. C. Russell, Miss A. W. Collins, Frank Springer. The prizes were awarded to Miss Cornish and Mr. Russell.

DICKINSON.

Carlisle, Penn., April 2 (Special).-The Belle Lettr society has chosen the following officers: President, Harper; vice-president, Wilson; recording secretary, Lantz; corresponding secretary, Ford; critic, Ames librarian, De Haven; assistant librarian, Herman business manager of "The Dickinsonian," C. Le Roy Robbins. The Union Philosophical Society officers are President, Snyder; vice-president, Thomas; treasurer

Clements; recording secretary, Earp.

The Reed Law Scriety elected the following officers on Wednesday: President, Lewis J. Baxter; vice president, Shoemaker; secretary, C. St. J. Brooks; treasurer, William De Haven; Executive Committee R. A. Henderson, J. M. Wilson, Mr. Shapley; sergeant

The following persons will constitute the Editorial Board of "The Dickinsonian" for next year, having been selected by competition in essays on some college subject: Belle Lettre Society—Alexander Ashley, '94; Norton Houser, '94; and William H. Ford, '94; Union Fhilosophical Society—Frank McDanlei, '94; Heib, '95; and Armacost, '95.

HOBART COLLEGE.

Geneva, N. Y., April 2 (Special).-The alumni and friends of the college will be gratified to know that by the will of James Simons, of this place, deceased March 25, handsome bequests are made to the per manent endowment fund of the library and the gen eral endowment fund of the college. The precis amount of the bequests has not yet transpired.

A brilliant and valuable course of lectures on Modern Greece," embodying the results of his studies and observations during his residence in that country last year, is being delivered by Professor J. H. Mc Daniels, of the Greek department. Professor D. F. Lincoln, the college lecturer on physiology and hygiene, finished last week an interesting and instructive con on hygiene, covering the following subjects: drainage, ventilation, diet, the eye, school hygiene. These courses of lectures were open to the public, and so far represent a new departure in the policy of the college. The marked favor with which they have been received will encourage the college authorities to offer similar courses in the future.

JOHNS HOPKINS.

Baltimore, April 2 (Special).-The Johns Hopkins University will make a fine exhibit at the World's Fair. 'The collection of scientific maps and Instruments and geological specimens was exhibited to the students in Levering Hall last week, and will the university in scientific results. The exhibit includes photographic maps of the normal solar spec-trum, both in sections and as an immense conand interior views; a plat representing the ground-amounting to six acres, now owned by she college; 20,000 lines to the inch. It was by means of these

hibit. This was the first continuous-current dynamo and these pictures are to be sent to the made, as the earlier forms of the Wilde and Siemens machines gave fluctuating currents. In a glass case are models showing the obverse and reverse of the Pabylonian clay tablet containing the account of the Deluge, as reconstructed by Professor Haupt, who contains a lot of valuable geological specimens, including minerals from Maryland, Pennsylvania and West Virginia, gathered on the summer expeditions of the students in geology. A bookcase contains complete sets of the publications and plate illustrations of the university press, including important works by Professors Brooks, Bloomfeld, Clarke, Williams, Haupt, J. Rendel Harris, A. T. Bruce and other members of the faculty. Dr. Cyrus Adler will arrange the display in the Liberal Arts Building.

Dr. Frederick Bancroft, Bharrian of the United

Dr. Frederick Bancroft, librarian of the United States Department of State, began last week a series of ten lectures on "American Diplomatic History. He will be followed by ex-United States Minister Kasson in a series of ten lectures on "European Diplo-

matie History. The opening of the baseball season on the university for a jollification. Six-horse busses carried out the enthustastic students, who shouted themselves hoarse when the new team outplayed the Columbia men. The New-Yorkers were taken by surprise. They had expected the score to be just about the opposite of what it was—14 to 4 in favor of the Hopkins. Next Triesday the Hopkins club will play Vale at Union Fark, this city. It will be the first time that Johns Hopkins has met Yale in any kind of an athletic contest. grounds at Clifton last Wednesday was the occasion

KNOX COLLEGE.

Galesburg, Ill., April 2 (Special).-The committee appointed to canvass for subscriptions to the Athletic Association have met with success. Almost all the money required has been raised, and work on the

cago, at the Grand Pacific Hotel, on April 7. A grand time is expected, as many of Chicago's prorel-

Graduates of the Knox Conservatory of Music ar each required to give a public recital some time during the year. There are only seven graduates from that department this year, and most of these have already given their recitals.

Hanover, N. H., April 2 (Special),-It is generally understood that Dartmouth will lose the best part of its museum on the removal of the Agricultural College to Dupham, which will take place some time before the beginning of the next school year. This is not the case. The entire sets of specimens which Dartmouth, and will not be removed. There is geological room, which the State owns and will take away. Professor Hitchcock, however, is authority for the statement that he has funds with which to purchase other and better ones to take their place. The Butterfield Museum will shortly be added, making the

whole one of the best college museums in the country Nine of the twelve men who will compete for the Lockwood, Nettleton and Grimes prizes, for excellence in declamation, have been selected after sharp con tests as follows: F. N. Chandler, 203; George C Selten, '93', S. P. French, '93', George E. Dufy, ' F. W. Hodedon, '94', S. E. Burrourbs, '94', Talma Hamilton, '96', G. W. Day, '95, and W. A. Foster, 't The Rev. C. E. Harrington, of Keene, has been of ducting revival exercises in the college church duri the last week with marked success.

Waterville, N. Y., April 2 (Special).-The Colby Gle-Club has just returned from its trip through the north ern and eastern parts of the State. The tour was suc concerts were received with enthustasm everywhere Receptions, whist and dancing parties were given in Frofessor Currie, by his fine impersonations and read-ings, won lasting favor in the cities visited. The Coby freshmen have received a challenge from the Isowdoin freshmen to play ball this spring. The challenge will be accepted.

UNIVERSITY OF ROCHESTER.

Rochester, April 2 (Special).—On account of Inability to secure sufficient space, the exhibit of the University of Rochester at the World's Fair will not be as extensive as was at first intended. Its principal feature will be thirty brounde prints of the university buildings, grounds and interiors of recitation rooms, together with a collection of books written by Rocheste alumni, numbering 275. Each author will be asked to contribute two copies, one for the university library and the other to be placed in the State library after

have a new court.

Captain N. G. Van Voorhis, of the football team, is already making precurations for the season and announces that practice will soon be commenced.

Bethlehem, Penn., April 2 (Special).-The Inseball The following games will be played at home: April 5 Harvard: April 12, Dartmouth: April 15, Princeton April 18, Trinity; April 29, University of Pennsyl vania; May 13, Cornell; May 24, Lafavette; May 29 Yale Law school; June 10, Lafayette. THE UNIVERSITY OF MICHIGAN.

Ann Arbor, Mich., April 2 (special).-The junihop will be held on Friday of this week. It will be conducted this year on a somewhat novel and per-haps more elaborate scale than heretofore. It will be a combination of three big events-the informal opening of the gymnashun, the annual Glee and Banjo Clubs' concert and the regular junior ballthe hop, 600 in number. The raised running track has been transformed into a gallery for those who come to the concert and to view the dancing. The concert will begin at \$:30 and the dancing at 10:30. President Angell will deliver the dedication eddress of the "Waterman Gymnasium." The "gym" is yet incomplete, but by temperary flooring in places it will make a first-class dance hall. The floor space in the main part of the gymnasium is larger than the same space in any other college gymnasium in the country. The patronesses of the junior ball are Mrs. President Angell, Mesdames G. B. Carpenter, George Dock, W. W. Douglass, J. C. Knowiton, and A. A. Stawley, of Ann Arbor; J. H. Conrad and J. H. Walker, of Chicago; John Patton, ir., of Grand Rapids; T. A. McGraw, of Detroit; F. D. Snydem, of Toledo,

and C. J. Bunday, of Albion, Mich. The Legislature has passed the appropriations for the university for 1803. They amount to \$182,290, 69 this amount \$142,500 is for current expenses, and \$737,500 for a new administration building, and \$2,500 for an anatomical laboratory. The new law providing for funds by an increase of the mill tax from ene-twentieth to one-sixth of a mill does not take effect until a year from now.

Schenectady, April 2 (special).- The mid-winter athletic contest held in the State armory just before the close of the winter term was a marked success. There were many events, and the number of spectators was large. The class of '95 won the greatest number of Arrangements have been made with Williams College to hold a joint spring field day on the Ridge field grounds in Albany. The day set is May 17. The snow has entirely gone from the college campus, and cutdoor athletics will probably begin as soon as the spring term opens, which will be next Tuesday.

President Webster is spending the winter in the south because of ill health. Report has lately been received here that he is much improved, and that he will probably return to Schnectady about commence-

The Union chapter of Beta Theta Pi has issued Ine Union chapter of Beta Theta Pi has issued invitations to the third annual banquet of the second district of the fraternity, to be held in Schnectady, on Friday evening, April 14. The banquet is to be given in honor of ex-Governor Beaver, of Pennsylvania. -Ell Perkins' will act as toosimaster. This is the first time that the district banquet has ever been held in Schenectady, and the Betas are making elaborate preparations for it.

ROWDOIN.

Brunswick, Me., April 2 (Special).-The following eniors, selected for excellence in English composition, compeled last evening for the class of 1868 prize in M. S. Clifford, Bangor; A. A. Hussey, Houiton; C. H. Howard, South Paris; C. W. Peabody Portland : H. C. Fabyan, Portland. G. S. Chaple, of Auburndale, Mass., was excused on account of illness. The prize was awarded to Peabody, whose subject

Algernon S. Dyer, of the class of '91, who has since pursued post graduate studies at Harvard, has been aused by Mr. Tolman's absence.

The "Orient" board has organized as follows: C. Minot; business manager, B. L. Bryant. The The Bugle," published by the juniors, appeared

The graduating class in the Maine Medical School has chosen the following officers: President, Ambrose H. Weeks, East Jefferson; vice-president, George A. Tolman, Portland; secretary, D. S. Latham, Fallmouth; treasurer, Eben J. Marston, Bath; orator, E. C. Newcomb, Newburg; marshal, P. F. Haskell,

Gloom has been cast over the close of the term by the death to-day, from typhold fever, of J. Evaris Pearson, one of the most promising men in the fresh-men class.

NEWS OF INTEREST FROM PRINCETON.

Princeton, April 2 (Special).-Beginning with the umber just Issued, "The American Journal of ing been transferred from Ginn & Co., Bost n. It is interesting to note that for the first time the cover of the magazine bears the title of the "Princeton University Press." The magazine has been made the official organ of the Archaeological Institute of America, and hereafter will be the medium of publication of letters published in America from the School of Athens. Professor Marquand is business manager, and Professor Frothingham managing editor.

lin clubs in New-York will be given on the evening of April 14. At present everything seems to point of April 14. At present exerything seems to point to a successful entertainment, as all the boxes are sold and a large number of tickets have been disposed of. A chorus of sixty voices will accompany the clubs and assist at the concert.

The freshman built team has at last been fairly well organized, and is practising daily in the cage. The dates for the games with the Harvard freshmen have not yet been arranged, but probably will be before the Easter vacation is over. There are sixteen men at present trying for the team, and the outlook for a strong nine is encouraging.

Easton, Penn., April 2 (Special).-The summer term pens on Thursday next. President Warfield has spent he vacation in Bermuda, and expects to return at the close of the week, his health having much im-

Madison Square Garden on Tuesday afternoon, April 11. Farbard College needs funds at once, and hence the benefit. The entertainment will consist of dialect

A movement has been started among the me of the musical societies of Columbia to establish a club. It has been decided to rent a couple of rooms in the building where the college restaurant is, and a lunch counter will be set up for the use of the members. The object of the club vill be to elevate and strengthen the music at Columbia. The rooms will be the home of the musical societies, and all rehearsals for concerts will be held in them. Mem-bership will be optional to the gee, banjo and mando-lln clubs, but those not connected with any of the musical clubs of the college will not be received.

The Shepard prize debate between Phrenocosmia and evening in the chapel of the college. The subject for debate is: "Resolved, That Protection is more beneficial to the people of the United States than Free Trade or revenue only." The two societies have selected the following students to represent them: Phrenocosmin-Messrs, Meagher, '94, and Naumburg, '94, and as declaimer, T. Smith, '94; Clionia-Messrs. Graff, '93, and Newman, '94, and as declaimer, C. Galleenstein, '95. Committees have been appointed from Phrenocosmia and Clionia to draw up resolutions of sympathy on the death of Elliott F. Shepard, the founder of the shepard prize debates.

The annual handicap run of the Cross-Country Association of the College of the City of New-York will take place on April 15 over the six-mile Fleetwood course. The entries for the run close on Friday, April 7. The classes of '94, '96 and '97 will have competing teams. Individually the classes of '93 and '95 will be represented in the run; '94 will be represented by J. Ehrich, C. H. Beanblau, T. M. Donoline and F. Wiener, and '96 by D. Marraner, F. A. Adams, S. P. Anderton, M. Ehrich, J. O'Ryan, P. G. White, J. T. Montross, D. B. Wehrum, F. B. Gordon, H. G. Mackie, J. Hollahan and I. Goldberg. A gold medal will be awarded by each of the chasses of '96 and '97 to the students in the two classes making the fastest time over the course. The association will award a gold, silver and a bronze medal to the three winning men. The medals are soon to be exhibited in the corridor of the college Managing editor, F. W. Pickard; assistant managing editor, F. J. Libby; local editors, H. dl. Pierce and in 31 mtn. 52 sec., and six miles in 37 min. 32 sec. in 31 min. 52 sec., and six miles in 37 min. 32 sec. over the Merris Park course, and the record miles in 3s 30, over the Washington Heights course, having be a accepted by the Executive Committee of the Cross Country Association, will be permanent. The intercollegiate athletic team of the City College expects to g t out of doors in a few days. Among those who are entered in the 12th Regiment games are the following: H. J. Mackle, '96; M. Ehrich, '96; C. A. Bjorkwall, '94; J. Ehrich, '94; T. M. Donohue, '94, and A. Stern, '93, Much activity is also shown by the candidates for the baseball team.

THE UNIVERSITY LIBRARY.

Within the last month a valuable collection of works n Assyriology have been presented to the University of the City of New York. The donor's name is with held for the present. It is now rumored that another bequest is to be made to the library in the form

extremely fortunate in its recent establishment of the library of Oriental and Semitic history and literature. For this favorable beginning the university is mainly indebted to its professor of Oriental languages, John Dyneley Prince, through whose efforts, in conjunction with those of Professor Haupt, of Johns Hopkins University, it has lately acquired the library left by the late Professor Paul de la Garde.

UNIVERSITY OF THE CITY OF NEW-YORK.

The secretary of the Alumni Association of the De as issued during the last week a neat forty-page directory, indicating the present address of stumnus, and at the same time showing just who and how many of the alumni have falled to respond to the request for personal history for the biographical catalogue about to be published by the association. Requests for blanks and information and any sup-plementary information for the catalogue should be sent to the secretary. Dr. Charles S. Benedict, No. 350 West Nineteenth-st., New-York City.

When the Industrial Education Association was

a change, not so much in its aim as in the method of Teachers' College is the training of teachers for the schools, it still retains a lively interest in all philanthe last winter, for example, application was received at the department of domestic science from an East Side Mothers' Club for a lesson on "What Shall We Cook for Our Husbands' Dinner Pails ?" Several girls' clubs also recently sent in requests for lessons on household hygiene and kindred subjects. The college has in every case compiled with these requests, either by its teachers or advanced students In the case of several of the boys' clubs of the city, the attempt has been made to solve the vexed question, "What profitable and interesting kinds of work can be devised for the boys that will be adapted to small quarters and will involve slight expense? to small quarters and will involve slight expense?"

The experiment of introducing some form of manual training has been tried with satisfactory results, several forms of equipment have been devised, and whitting courses have been laid out, consisting of windmills, water-wheels, puzzles and useful articles. The entire cost for the season for equipment tools and materials has been reduced to a sum ranging from 50 cents to \$15 for each boy.

BROOKLYN POLYTECHNIC INSTITUTE.

Little has been done among the various Polytechnic Institute societies during the last week on account of the quarterly examinations. The classes most in-terested were the sophomore and the junior. The juniors had examinations in two difficult studiesphysics and analytical geometry. This year has been remarkable in the fact that so few students have gone to other colleg's. This year for the first time "Po'y" is to award the degree of Electrical Engineer to at least six students. The Banjo Clab will give a concert on

The Banjo Club is one of the most popular institu-tions at the "Poly," and it has now become difficult to obtain a membership in this organization. The Easter holidays began on Good Friday, and will last until Wednesday.

AFFAIRS AT PRATT INSTITUTE. An interested and large audience attended Professor Atwater's lecture at Pratt Institute, given on

THE WHINING SCHOOL BOY WHO DID NOT TAKE JOHANN HOFFS MALT EXTRACT.

And then the whining school-boy, with The school-boy trudging on to school No longer whines. He nothing lacked And shining morning face, creeping In leaving home; for he partook Of Johann Hoff's famed Malt Extract

The class is open to the public. It already has several applicants out of the normal class.
>
> N. P. Heffley, director of the department of com-

class in public hygiene, in connection with the course

of study pursued by the normal class in domestic

science, will be organized this week under the in-

struction of Dr. Glentworth Butler. There will be

merce, will give a free lecture on "The Typewriter" in Assembly Hall on April 13 at 8 p. m. After the lecture there will be an exhibition of old and curious typewriting machines, and also of rapid typewriting Charles H. McGurn, the expert, who is able to write over 200 words a minute. nittee from the Journeymen Plumbers' Associat

who had completed the two-years' course. The who had completed the two-years' Ourse. The work the young men had done in the shop was first examined, and the class was then orally questioned. All the candidates passed and received certificates which, in case the holders hereafter apply, will ad-mit them to the Plumbers' Association without further examination.

The Master Painters' Association of Brooklyn performed a similar service for the fresco-workers, to the direction of which class it co-operates.

TAXATION REFORMS.

PROPOSED CHANGES IN STATE LAWS. HOW CORPORATION PROPERTIES ARE TO BE VALUED-FEATURES OF MR. FAR-

QUHAR'S BILL. THE REGULAR CORRESPONDENT OF THE TRIBUNE. Albany, April 2.-None of the various bills amending Legislature, but vigorous efforts are making by the special Tax Commission, Senator McClelland and Asemblyman Farquhar to pass some bill before the Legislature adjourns. One of the reasons for their last year to bring about the preparation of measure

A. Collin and J. Newton Flero, acting as a special Tax Commission, under ap for preparing a codification provision and amendment headed by Senator McClelland, and armed with stenographers and two lawyers as counsel, expended many thousands of dollars in taking evidence regarding the working of the taxation laws and in preparing six bills for the reformation of these laws. value of the work done by Senator McClelland's committee may be estimated by the fact that one of the bills submitted by it amending the collateral in-heritance taxation laws refers to six or seven laws

which were repealed last year. Assemblyman Farquhar having failed in his selfessumed roll of the champion of downtrodden residents of New-York who pine for rapid transit in that city is now attempting to gain some reputation as a taxation reformer. He has had his bill giving countles the right of local option, so far as personal property, taxation or real estate taxation is co made a "special order" on three different occasions in the Assembly, and on all three occasions has abandoned this bill, and has undertaken the mightler task of pushing through a revision made by him of the Taxation law prepared by Professor Collin and

This is the till which taxes savings-bank deposits, creates a State Board to assess the property of the telegraph and railroad companies, and makes other objectionable innovations upon present taxation laws. Mr. Farquhar has just put in his bill the rate of taxation which he proposes to inflict upon a large body of corporations. It is the big rate of 21-2 mills on each dollar of the property which they employ in this State. This section of the bill now reads as

follows:

Section 181. Every corporation, joint-stock company or association, express company and trust company, except banks, savings banks and institutions for savings, life insurance corporations, foreign insurance corporations, manufacturing corporations wholly engaged in carrying on manufacture within this State, mining corporations wholly engaged in mining ores within this State, agricultural and horticultural societies or associations, but including trust companies, gas companies, electric or steam heating, lighting and power companies, incorporated, organized or formed under or pursuant to the laws of this State, or of another State or country, or of the United States, shall pay the State Treasurer annually a franchise tax or license fee for the privilege of exercising its corporate franchise, or carrying on its business in such organised capacity in this State, a sum to be computed upon the basis of the amount of its property employed within the State, at the rate of 21-2 mills on each dollar of valuation thereof.

The Farquilar bill gives the State Controller large powers in ascertaining the amount of the tax due

powers in ascertaining the amount of the tax due from corporations which do business not only in this State but in other States. The method he is to pursue in learning the value of the property of corporations employed in this State is an in will greatly interest the corporations who are to be taxed under Section 181, quoted above. The bu

taxed under Section 181, quoted above. The bit says:

Section 186. Ascertainment of property employed within the State.—From the reports, information and other data, the controller shall make absentiate of the property employed within the State of every corporation liable to a franchise tax under Section 181 of this article as follows: He shall estimate the total market value of the stock and bonds of the corporation, and the actual value of the property thereof employed without the State. From the estimated total market value of the stock and bonds shall be deducted the estimated actual value of the property of the corporation employed without the State, and the amount remaining may be deemed the property of the corporation employed without the State. If the controller is unable to estimate the market value of the stock and bonds of such corporation, or, if in his judgment, the total market value of the broket and bonds of such corporation, or, if in his judgment, the total market value of the stock and bonds of such corporation, or, if in his judgment, the total market value of the stock and bonds to such corporation, or, if in his judgment, the total market value of the stock and bonds of such corporation, by shall directly estimate the actual value of the property of the corporation and the gmount thereof employed within the state. The controller shall estimate the corporation is the estimated value of the property of the corporation is the estimated value of the bonds thereof. Of the total tax paid by such corporation in pursuance of section 181 of this chapter, such amount shall be decemed paid on account of the bonds thereof as the estimated value of the bonds bears to the total estimated value of the bonds bears to the total estimated value of the bonds bears to the total estimated value of the bonds bears to the total estimated value of the bonds bears to the total estimated value of the bonds bears to the total estimated value of the bonds bears to the total estimated value of the bonds bears to the t

Mr. Farquhar's bill is a special order for contion in the Assembly on next Wednesday, and will provoke a hot debate.
